

NYLON

- Thermoplastic resin (Polyamide 6).
- High mechanical resistance.
- Tenacity.
- Resistance to wear and abrasion.
- Classified as self-extinguishable into category UL 94V-2. It does not generate toxic gases.

MAINTENANCE

There is no correspondence between the colour's of pba 6 Polyamid extruded/stamped products and the RAL chart. The RAL standards indicated only represent an indication of pba's colours, taking into account that they could be considerably different from each other, mostly depending on personal perception as well as monitor and printer settings. Sometimes pba plastic products could stand between two colours or there could be no match at all. Pba advices to request a sample for an accurate choice.
